

# TSE Executive Education Seminar

October 1, 2019

Hotel Renaissance, Brussels

## Seminar:

### What is New in Antitrust and Merger Control

#### Objectives:

Six well-known TSE economists present the latest developments in economic theory and empirical analysis relevant to the assessment of antitrust and merger control.

#### Key benefits:

- Learn about new theories of harm in merger control
- Discuss the relevance of data in merger control and antitrust
- Understand how economics can help competition law practitioners navigate the digital revolution
- Be ready to distinguish what is true and what is hype in the current debate about Big Tech companies
