MISSION OF AMERICAN FRIENDS OF TSE

American Friends of Toulouse School of Economics (TSE) is a publicly-supported, 501(c)(3) charitable corporation, established in February 2017.

Its goal is to advance excellence in research and teaching in economics and related fields, in order to improve decision-making and understanding of economic issues, and to encourage a more open, sustainable, and humane economy in France, the United States, and globally.

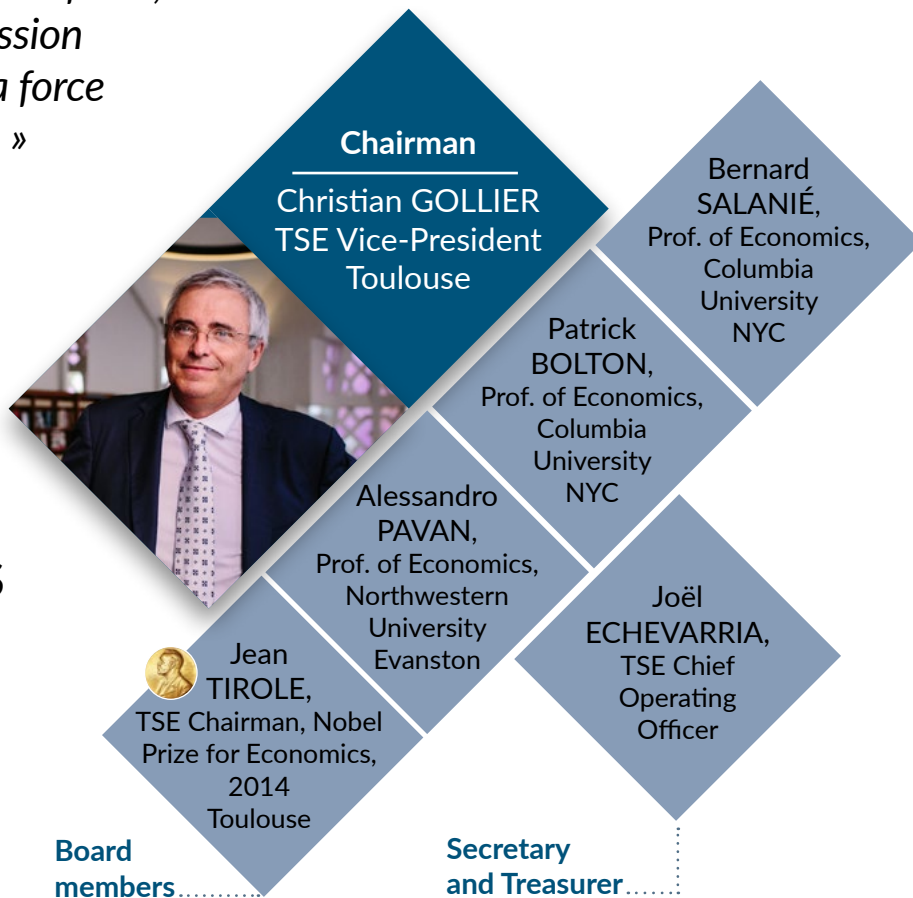

American Friends of TSE currently pursues its mission through:

- ◆ supporting education and research in economics, particularly for and by Americans at TSE,
- ◆ cooperating with American research and education organizations,
- ◆ organizing scientific and cultural events, in part to advance TSE's programs.

American Friends of TSE intends initially to make grants to individuals (students and researchers) and to capable institutions which have the capacity to implement the Friends' goals.

« By giving to American Friends of TSE,
you contribute to our mission
to develop economics as a force
for good in the world. »

Christian GOLLIER,
Chairman

BOARD OF AMERICAN FRIENDS OF TSE

YOUR SUPPORT

Your generosity makes it possible to advance the global mission of American Friends of TSE. We are looking forward to working with you in building a strong network of US corporate and individual donors over the years to come.

How?

Your donation can be unrestricted, which the Friends will use where needed most. Or you can suggest particular purposes – an endowed chair, a scholarship, a scientific conference – with the ultimate allocation, as required, made by the board of the Friends.

Tax-deductible giving

American Friends of TSE, Inc. is a publicly-supported charity exempt from Federal tax under section 501(c)(3), which enables US taxpayers to receive the fullest charitable deduction allowed by law.
