CALL FOR PAPERS

Date and location:

Toulouse, January 7-8, 2027

The conference will take place in person in Toulouse. This is not a hybrid conference.

Background and objective:

The objective of the conference, organized by the TSE Digital Center at the Toulouse School of Economics, with the help of the CEPR, is to discuss recent contributions to the understanding of the digital economy and its consequences for modern societies.

The conference will feature contributions in economics - theoretical, econometric, experimental and policy oriented - as well as contributions from other social sciences and computer and data science.

We encourage submissions on a wide range of topics relevant to the digital economy. By way of example, and without limiting ourselves to these fields, the 2027 conference included multiple sessions on artificial intelligence, platform competition, advertising, social media, news and political opinion formation, privacy, and the impact of digital technology in the energy sector.

Keynote speakers:

[Chiara FARRONATO](#) - Harvard Business School

[Joshua GANS](#) - University of Toronto

Organizing committee:

Alexandre de Cornière, Doh-Shin Jeon, Chuqing Jin, Andrew Rhodes and Paul Seabright.

Submission:

To submit your abstract or paper, [click here](#).

Papers should be received by **September 1, 2026** (abstracts will be considered, but papers are more likely to be accepted).

For any further information, please write to digitconf@tse-fr.eu or contact a member of the organizing committee.
