

Professor in Applied Mathematics / Statistics with tenure

The [Department of Mathematics and Statistics](#) at Toulouse School of Economics (TSE) has an opening for a Professor position with tenure beginning September 1, 2023.

TSE offers an exceptional professional and scientific such as :

- high-quality scientific environment in Toulouse,
- strong interaction with the prominent Department of Economics,
- very pleasant working conditions in a major city in south of France, new building in the city center,
- efficient staff and support to grant management and application,
- attractive incentive-based research environment.

We recommend that candidate submit by **February 23, 2023** the following package :

- cover letter,
- curriculum vitae,
- statements on research (candidates could highlight the relevance of carrying it at TSE) and teaching (with evaluations and past and possible future responsibility of academic programs),
- links to accessible files of significant publications and preprints in CV or statement on research,
- contact information for at least three reference letter writers.

The search for candidates continues until the position is filled. We will start interviews in March 2023.

✉ Application and possible questions should be sent to recruitment-math-senior@tse-fr.eu.
