TSE student associations
The TSE Student Association (Bureau des étudiants) is one of the school’s student associations. Its aim is to establish dynamic relationships between students in every year group, from Bachelor’s to Master’s degrees up to PhD level.

Numerous events are programmed throughout the year: the freshers’ weekend in September, the ski weekend in January, the Barathon in February and the highlight of the year, the Gala in March.

Between these major events, Afterwork parties are organised roughly once a fortnight.

These activities are managed by a motivated team of bachelors and masters students. Everyone is free to join the TSE Student Association and to stay for as long as they wish. The association is a patchwork of nationalities and its committee is always made up of French and foreign students. In fact, in the Master’s courses the majority of students are not French speakers, therefore the events organised by the committee are bilingual French/English. In addition to organising nights out, the committee also manages the creation and sale of TSE goodies (mugs, sweatshirts, t-shirts, portable chargers, etc.)

Say It Aloud

Say it aloud TSE is a student association which aims at giving students the floor. It is about making them feel comfortable while speaking and widening the economic frame provided by the School by addressing other themes.

Every year, the association organizes conferences on various topics such as new methods in agriculture, secularism or bitcoin. The subjects are chosen as a team, and the same team is responsible for organizing a timely and dynamic lecture for students (but not only!).

Say it aloud TSE also sets up public speaking workshops to make students more comfortable so that they can develop and perfect their personal style. In addition, the association is part of the French Federation of debate and thus, it participates in the competition the Federation organizes every year. This is a team training: friends of the rich and spontaneous speech, courage, words and ideas: Join Say it aloud!

This association was created with the aim of making the students meet around sports activities. The BDS (Bureau des Sports) offers various activities so that everyone can exercise in a spirit of conviviality.

Every semester, a laser game outing is planned by the BDS, a very popular event that gathers many students! In addition, the BDS regularly organizes social events to favor friendly interactions (table football, belote tournament...).

During the year, students will also have the opportunity to compete in a series of events during the Olympics or a remake of Koh Lanta, events during which team spirit, fair play and good humor are the key words. Every week, the association also sells baskets of local and seasonal vegetables to the students.

The BDS is committed to an eco-friendly approach by completely suppressing plastic bags! Students can now get a BDS TSE tote bag to collect their vegetables. This events and activities are open to the whole school community! Therefore, it is possible to meet Bachelor, Master and PhD students, but also members of the TSE Alumni network.
The TSEconomist is a magazine produced and designed by TSE students. Students publish this magazine to help develop its readers’ critical thinking skills and connect researchers, TSE Alumni, and the school’s students, bringing the TSE Community together around debates on major social issues.

The association encourages motivated students to join to work on various activities which precede the creation of each edition:

- write articles and conduct interviews
- cover events on campus
- collaborate in the design of the magazine
- read articles and make corrections (proof-reading)
- promote the TSEconomist
- become a member of the committee

If you wish to get involved in this project or bring new ideas to the table, contact them!

Women in Economics at TSE

Women in Economics at TSE is an association aimed at increasing the representation of women and facilitating their professional integration in the field of economics and at TSE. We offer an informal support and mentoring network that connects women in master’s and doctoral studies with professors and researchers.

Our association also brings together students of all genders to work towards the inclusion of women in economics and to discuss topics related to gender and economics. We organize a lecture series with guest speakers who present research in gender economics to the entire TSE community.

Women in Economics is a new association and we are looking for active members of all genders to help shape the structure and program of the association. Make sure to follow us on Facebook or send us an email to get information about signing up for the mentorship program and the dates of our meetings/events.
