Teaching staff contacts – Coordonnées de l'équipe pédagogique :

Tiziana Assenza (tiziana.assenza@tse-fr.eu)

Course Objectives – Objectifs du cours :

The course is an introduction to behavioral and experimental economics and applications in Macroeconomics.

You will be required to actively participate in the course by means of presentations/discussions. By the end of the course, you should be able to master the discussed topics and methods.

Prerequisites – Pré requis :

The course will be taught in English. No specific requirements.

Practical information about the sessions – Modalités pratiques de gestion du cours :

You are asked to be present to all sessions. Part of the course requirements is a presentation with active participation from your fellow students. Hence, it is important that you attend all sessions.

Grading system – Modalités d'évaluation :

The final grade will be computed by evaluating the following requirements:

1. You will be asked to form groups of 2 or more students (depending on the number of students taking the course). As a group you will be required to prepare presentation(s) and discussion(s) of research papers.
2. You will be asked to individually write a short essay on a topic of your choice (among the ones in a list that will be provided at the beginning of the course) that you will have to hand out the day of the final exam.

Bibliography/references – Bibliographie/références :

No book is required. However, a list of suggested readings will be provided at the beginning of the course

Session planning – Planification des séances

The course will consist of two parts. The first part will be devoted to the presentation and discussion of the main topics in behavioral economics. The second part will be devoted to the discussion of the experimental method in economics. A macroeconomic experiment will be presented and discussed in detail.

Distance learning – Enseignement à distance :

If required by the health situation, we might organize live sessions online.
