Course Objectives - Objectifs du cours :

The course intends to provide students with general principles of industry regulation and expose them to market regulation in network industries. It deals more specifically with regulation in the postal sector, the electricity industry and air transport. The lectures will be based on academic papers as well as real-world regulatory practices.

Prerequisites - Pré requis :

M1-level microeconomics and industrial organization.

Grading system - Modalités d'évaluation :

Grading will be based on assignments and/or a final exam. More details will be provided during the first session.

Bibliography/references - Bibliographie/références :

References will be provided in class

Session planning - Planification des séances :

Part 1: General principles of industry regulation (Helmuth Cremer)

Part 2: Regulation of the postal sector (Helmuth Cremer)

Part 3: Electricity regulation (Yassine Lefouili)

Part 4: Air transport regulation (Estelle Malavolti)

Distance learning – Enseignement à distance :

Distance learning will be implemented if needed and will involve a mix of interactive virtual classrooms and assignments.
