WELCOME TO TOULOUSE!

And welcome to the 2019 meeting of the French Association of Experimental Economics (ASFEE). We are very happy and proud that this 10th meeting of our association is hosted by the Toulouse School of Economics. We had a large number of very good submissions and we look forward to two days filled with stimulating talks and discussions.

We are especially happy to have again a number of very nice poster submissions. Posters are presenting experimental designs and proposals by young scholars and you will have the opportunity to vote for your favorite poster. Remember to do so! The winner of the poster competition will receive a prize that will hopefully help in the implementation of the proposed design.

Also please remember that any presenter less than 34 years old by the end of the year 2019, is eligible for the ASFEE 2019 prize. We encourage all authors and especially women to apply for the prize!

We wish you a nice and interesting conference and hope that you will enjoy Toulouse.

Astrid Hopfensitz

President ASFEE

Information for parallel sessions:

We ask presenters in parallel sessions to stick to their initial allocated slot (even in the case of absence of other speakers). Independent of session length presentations should be 20 minutes. The last speaker in a session should act as session chair.
