Vitae

- Professor of Economics, University of Montpellier III, since 2006.
- Assistant Professor of Economics, University of Toulouse I, 2004-2006.
- Teaching Assistant of Economics, University of Paris I, 1999-2004.
- Economist, French Treasury Department, Moscow, 1997-1999.

Research interests

- Economic theory: OLG models, intertemporal equilibrium.
- Economic demography: population aging, demand for annuities, epidemics.
- Environmental economics: global warming, sustainable development.

Main Publications

- Demographic-economic equilibria when the age at motherhood is endogenous, (with E. Augeraud-Véron and K. Schubert), Journal of Mathematical Economics 46, 1211-1221, 2010.
- Fair intergenerational sharing of a natural resource, (with S. Ambec), Mathematical Social Sciences 59, 170-183, 2010.
- Annuities, bequest and portfolio diversification, (with E. Thibault), Journal of Public Economic Theory 12, 75-91, 2010.
- Parental altruism, lifetime expectancy, and dynamically inefficient equilibria, (with B. Decreuse), Journal of Economic Dynamics and Control 33, 1897-1911, 2009.
- Competitive growth in a life-cycle model: Existence and dynamics, (with E. Augeraud-Véron), International Economic Review 50, 459-484, 2009.
- Endogenous retirement and monetary cycles, (with E. Augeraud-Véron), Mathematical Population Studies 15, 214-229, 2008.
- Existence of solutions in continuous-time optimal growth models, (with P. Gourdel and C. Le Van), Economic Theory 37, 321-333, 2008.
- Demographic structure and capital accumulation, Journal of Economic Theory 132, 411-434, 2007.
- Balanced cycles in an OLG model with a continuum of finitely-lived individuals, (with E. Augeraud-Véron), Economic Theory 30, 181-186, 2007.
- Existence of a competitive equilibrium in the Lucas (1988) model without physical capital, (with C. Le Van), Journal of Mathematical Economics 42, 46-55, 2006.

Proceedings

- Démographie et fluctuations économiques, (with E. Augeraud-Véron and M. Bessec), Revue Economique 55, 429-438, 2004.
- La croissance démographique dans les modèles à générations imbriquées, Revue Economique 54, 573-582, 2003.

Chapters in collective books

- Continuous-time overlapping generations models, (with E. Augeraud-Véron), in R. Boucekkine, Y. Yatsenko et N. Hritonenko (Eds.), Optimal Control of Age-structured Populations in Economy, Demography, and the Environment, Routledge, Taylor and Francis, p. 45-69, 2011.
